PROFESSIONAL SUMMARY

Frontend Developer with 2.5+ years of experience building responsive, API-connected React applications. Independently architected the frontend of a multi-role business platform with 30+ modules and 650+ source files. Skilled in React.js, JavaScript, Redux Toolkit, Material UI, REST APIs, Stripe integrations, scheduling interfaces, analytics dashboards, and reusable component architecture. Currently expanding expertise in Next.js and TypeScript.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Responsive Design

State & Routing: Redux Toolkit, Redux Persist, Context API, React Router

UI & Libraries: Material UI, Tailwind CSS, Formik, Yup, Recharts, React Big Calendar, Leaflet

Integration & Tools: REST APIs, Axios, Stripe, Google OAuth, Git, GitHub, npm, Postman, Chrome DevTools

Currently Learning: Next.js, TypeScript

PROFESSIONAL EXPERIENCE

Senior Frontend Developer - Menteso, Noida

20 Aug 2024 - 27 Feb 2026

- Independently architected and developed the complete frontend of Sproutly, a multi-role business-management and service-booking platform with protected portals for business owners, instructors, and customers.
- Delivered 30+ modules covering scheduling, appointments, attendance, memberships, staff management, point of sale, loyalty programs, reporting, and analytics.
- Structured a scalable frontend of 650+ source files using reusable components, custom hooks, Redux Toolkit, persistent state, and centralized API service layers.
- Integrated development-environment Stripe workflows for checkout, saved cards, coupons, gift cards, memberships, packages, and point-of-sale payments.
- Built daily, weekly, and monthly scheduling interfaces plus Recharts dashboards for sales, visits, bookings, retention, memberships, and instructor earnings.
- Implemented authentication, protected routes, Formik/Yup validation, pagination, timezone handling, responsive layouts, and consistent loading and error states.

Frontend Developer - Prune, Noida

19 Aug 2023 - 14 Aug 2024

- Developed responsive website interfaces using React.js and JavaScript, translating product requirements into functional user-facing pages.
- Created reusable UI components and consistent layouts for desktop, tablet, and mobile experiences.
- Maintained and improved frontend screens through UI refinements, component updates, and bug fixes.

PROJECTS

JobTracker | Next.js, JavaScript, Tailwind CSS - Responsive job-application tracker for organizing roles, application status, and follow-up notes. [Live Demo](#) | [GitHub](#)

Portfolio Website | Next.js, React, Tailwind CSS - Responsive portfolio with reusable components, accessible navigation, and SEO metadata. [Live Site](#)
